

Section 4: Improving and Managing Software Over its Lifetime

Preparing Software for Reuse

Breakout: Start from the Top

Start from the top of this episode page and go to the end.

 5 Minute Break 

Assessing Software for Suitability and Improvement

Breakout: Start from the Top

Start reading from the top of this episode page all the way to the end.
Complete exercises as you go.

You will need to synchronise as a group at the  **Decide on your Group's Repository!** exercise. Please use a sticky/reaction to indicate when you have reached this exercise.

For the next exercise, you will then need to wait for the other group you are assessing to fill in their repo URL.

 10 Minute Break 

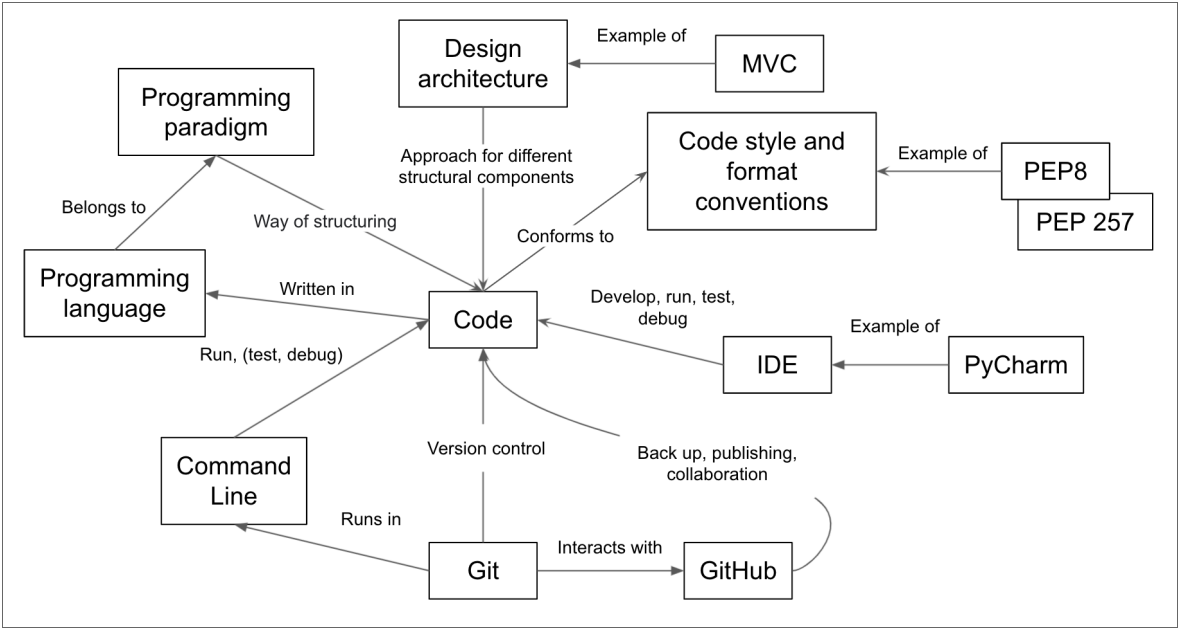

Improvement Through Feedback

Breakout: Start from the Top

Start reading from the top of this episode page all the way to the end.
Complete exercises as a group.

There is a separate shared documents specific to your group linked from the original shared document. This will give your group an uncrowded space to handle the issues that another group has submitted on your repo.

Wrap Up

 End of Section 4 

Please fill out the end-of-section survey!
